# National Conference on Innovative Researches in Engineering, Science & Technology (NCIREST-2019)

7<sup>th</sup> MARCH 2019

organised by  
Department of EEE

## P.S.R.RENGASAMY COLLEGE OF ENGINEERING FOR WOMEN

### About the conference

The main aim of NCIREST-2019 is to provide a forum for students, engineers, academics, researchers and practitioners for sharing and exploring new areas of research and development and to discuss emerging issues and novel methods. It will provide a gateway to enhance their knowledge in the area of computing and recent technologies. In order to study the dynamics of global problems in developing and deploying the upcoming ideas from the point of academics and industrialists.

### About the Institution

To endeavor for constant upgradation of technical expertise for producing competent professionals to cater to the needs of the society and to meet the global challenges. To enrich the academic activities by continual improvement in the teaching-learning process. To infuse confidence in the minds of students and to develop as entrepreneur. Demonstrate soft skills, professional and ethical values and as aptitude for lifelong learning needed for a successful professional career.

### About the Department:

Department of Electrical and Electronics Engineering (EEE) was established in the year 2008 with the vision of developing the Department as a centre of Excellence in Research and development. The main focus is

to make the students blossom into meritorious and self-disciplined engineer by smart work. The department has qualified and dedicated faculty members with Ph.D., & M.E qualification and is instrumental in building the career of the students.

### Topics

Researchers, Academicians, Practicing Engineers and students are invited to submit papers on the areas and related topics of interest includes, but are not limited to the following categories:

**Power Electronics, Systems and Applications**  
**Electrical Machines and Adjustable Speed Drives**  
**Electrical Power systems & Control systems**  
**Smart Grid Technologies and Applications**  
**Energy Conservation & Monitoring**  
**Machine Learning and Deep Learning Techniques**  
**Renewable Energy Sources**  
**Power Quality**  
**High Voltage Engineering**  
**Cyber Security**  
**Internet of Things**  
**Robotics and Automation**  
**Medical Signal & Image Processing**  
**Computation , Modeling & Simulation**  
**Big Data and Data Mining**  
**Applied Chemistry, Physics, Mathematics**  
**Computer Engineering**  
**Mechanical Engineering**  
**Civil Engineering**
